

Checkpoint 360^o™

Professionales Assessment™ Profiles Sales Indicator™
Workplace Engagement Survey Profiles Managerial Fit™

The CheckPoint Feedback System is a 360-degree survey. It is used primarily to evaluate the effectiveness of your managers and leaders. This survey combines feedback from Direct Reports, Peers, Supervisors, and even customers, with a

personalized program for developing specific leadership skills based on that feedback. This process highlights a manager's job performance in eight Universal Management Competencies: Communication, Leadership, Adaptability, Relationships, Task Management, Production, Development of Others, and Personal Development.

Why Assess Employees with CheckPoint 360^o™?

The CheckPoint 360^o™ helps managers identify and prioritize their own development opportunities and helps the organization to better focus management training. It also proactively uncovers misaligned priorities between senior executives and front-line managers by bringing to the surface management issues that could lead to low employee productivity, morale, satisfaction, and turnover.

Turning vision into a reality is arguably one of the key challenges facing today's enterprises. CheckPoint 360^o also helps align managers and their bosses by identifying and comparing the six critical skills required for success in a role. This helps identify talents, gaps, and focus areas to get everyone on the same page to deliver on the organization's strategy.

How Does It Work?

CheckPoint 360^o™

The CheckPoint 360^o™ is the foundational survey used to:

- Gather perceptions of the manager's leadership capabilities from the manager, and a reference group of boss, peers and direct reports, and has the ability to collect comments on each competency being measured.
- Enable a complete understanding of the manager's capabilities across eight universal Management Competencies and 18 key Skill Sets.
- Provide insight into each Skill Set through a robust set of reports, including a detailed development plan for the individual and coaching and management considerations for those who supervise the manager.
- Give senior leadership an overview of talents, gaps, and focus areas for the organization.
